

Burt and Arlene Watson  
La Mesa, California

Dear Kirstin,

We just wanted to let you know how very pleased we are with the mosaic projects you created for our home. The front porch mosaic truly lives up to it's name, "Welcome". Everyone who comes through our front door comments on how beautiful it is. We had been thinking about creating an artful entry way to our home and your mosaic fulfilled our vision perfectly. It was a delight to work with you on the design and watch it's progress from start to finish.

You know how excited we were about our studio renovation and the glass "Studio" mosaic you made for us is truly the icing on that cake. Artists to artist we can't say enough about all of your artistic efforts which we have been fortunate enough to witness over the years of our friendship. Your ability to grasp a concept and execute it is certainly one of your greatest gifts. It's a real joy to be on the receiving end of your creativity.

On the business side, you delivered as promised. The project was completed on time and on budget, and we appreciated how mindful you were to keep the work area neat and safe, considering it leads to our front door which we use daily.

Many thanks for a great job!

Arlene
